

## How to Become a Better Speaker in Just 1 Day

What if you knew you could be a better speaker in just 1 day? Would you do it? Now's your chance to change your life in a meaningful way regardless of your position or profession. Just imagine getting past a resolution that's been on your list for years!

That's my invitation to you. Really dive in and discover what speakers like me had to learn to take to the stage with confidence and poise each and every time.

You'll start rocking presentations if you diligently apply what you learn in this class.

In this program, you'll get this and more:

- Getting over the nerves that are part of the territory. Learn the one psychological secret that helped me make a huge advance in this area.
- How to come across as confident and convicted. It's actually simpler than you think!
- How to structure a presentation. I'll teach you a surefire and simple structure you can use again and again.
- 4 different openings that crush the average opening nearly every speaker uses. Use 'em (my openings) or lose 'em (your audience).
- 3 closes that wrap up a talk with strength and clarity. By the way, one of them is NOT Q&A!
- Why you should never end your talk with Q&A. There is a time and place for questions which I'll share with you.
- A formula for stories that is magnificent. This formula was created by Craig Valentine, one of the world's foremost storytellers. It's just complicated enough to scare away the wanna be speakers from the ones who are serious like you. Your stories will be awesome if you use this process.
- The magic and the power of transitions. These are rarely used by amateur speakers and yet they're almost always used by the pros. Why? Because they work like crazy to develop an audience's interest in your speech. I'll teach you exactly how to use them properly.

- How to engage your audience. This is truly a way to distinguish yourself as a speaker. I'll share multiple ways to connect with your audience.
- The 3 best ways to rehearse. Rehearsal is so important, and most people don't even do it right. I'll share with you 3 different ways to rehearse so you really get good.
- Slides that work and slides that don't. You just can't get away from slides sometimes. Use my tips and they'll work much better for you and make YOU the star of the show. You want to be the star of the show, right?
- We'll also cover the most common mistakes that speakers make. Just by paying attention to this list you'll be a better speaker.

I'm out of space, but not out of content. You'll get all this and more in the 90 Days to Better Speaking Program. I may even have a guest speaker or two come in to add to my agenda. Can you imagine how much better of a speaker you'll be after all this? And how much your confidence will rise?

You're going to learn a ton (that took me years to get). In fact, you'll be able That won't be the case with you!

This program has been years in the making and now it's ready for you.
